Roche Continents 2015 from August 11 to 17, 2015, in Salzburg, Austria

“Roche Continents” is a project that has grown from the partnership between Roche and the Salzburg Festival, where Roche is sponsoring “Salzburg contemporary”, an ongoing series of concerts featuring the works of modern composers.

Through “Roche Continents” you can experience performances of contemporary music and try to uncover the common ground of creativity in arts and science.

The participant will meet up to 99 other young people from across Europe and explore topics from the worlds of art and science. He/she will attend performances of works by outstanding modern composers at the Salzburg Festival – and much more.

Further information you can find here: <http://www.roche-continents.net>
