Roche Continents 2017 from August 15th to 21th, 2017, in Salzburg, Austria

Roche Continents is a project grown from Roche's partnership with the Salzburg Festival, where the company sponsors Salzburg contemporary, a series of concerts featuring the works of contemporary composers.

Roche Continents is aimed at arts and science students from European institutions. It enables them to experience contemporary music at the Salzburg Festival and to discover the common ground of creativity in the arts and science through discussion among themselves and with key personalities in both fields.

Further information you can find here: <https://roche-continents.com>
